NOTICE OF HEARING

NOTICE IS HEREBY GIVEN that the Governing Board of the Mojave Desert Air Quality Management District (MDAQMD) will conduct a public hearing on 06/28/2010 at 10:00 A.M. to consider the proposed amendment of Rule 219 - Equipment Not Requiring a Permit.

SAID HEARING will be conducted in the Governing Board Chambers located at the MDAQMD offices 14306 Park Avenue, Victorville, CA 92392-2310 where all interested persons may be present and be heard.

Copies of the proposed amendment of Rule 219 - Equipment Not Requiring a Permit and the Staff Report are on file and may be obtained from the Clerk of the Governing Board at the MDAQMD Offices. Written comments may be submitted to Eldon Heaston, APCO at the above office address. Written comments should be received no later than close of business 06/25/2010 to be considered. If you have any questions you may contact Tracy Walters at (760) 245-1661 extension 6722 for further information.

Previously, all agricultural activities were exempted from air district permitting by state law (former Health & Safety (H&S) Code §42310). Recently the federal government required the State of California to regulate, through permitting, many previously exempt agricultural activities. California responded by adopting SB 700 in 2003 (H&S Code § 40724-40724.7) which contains provisions requiring air districts to adopt rules in part to regulate pollution from large

er agricultural sources in the same manner as non-agricultural sources with similar equipment. The proposed amendments to Rule 219 - Equipment Not Requiring a Permit will implement portions of the provisions of SB 700 by requiring all agricultural sources that meet certain thresholds of animals or regulated pollutants to obtain permits in the same manner as other regulated sources.

This rule action is a part of the entire implementation of SB 700 which also includes the adoption of Rules 403.3 - Fugitive Dust Control for Off-site Agricultural Sources, 403.4 - Fugitive Dust Control for On-site Agricultural Sources, 1160.1 - Internal Combustion Engines in Agricultural Operations, and 1186 - Confined Animal Facilities. This amendment will also add a provision to include negligibly emitting fuel cells as specific equipment not requiring a permit. This is a similar provision to those contained in neighboring air district rules.

Pursuant to the California Environmental Quality Act (CEQA) the MDAQMD has determined that a Categorical Exemption (Class 8 - 14 Cal. Code Reg §15308) applies and has prepared a Notice of Exemption for this action.
